

FINAL MAP PROJECT PRESENTATION

OVERVIEW

Welcome to week 8: And That's a Wrap! It's been Fast and Furious with lots of information and hands on exercises which will serve you well in the GeoSpatial field. Though we've covered a lot of material we've only scratched the surface of the Geomatics and Mapping tools at our disposal. As you progress in this ever changing mapping profession, remember that it's impossible to know "everything" but your "bag of tricks" will forever expand as you come across new technologies and situations that force you to apply the basics you learned in this class.

This week you'll be required to do a short ten (10) minute presentation to the class on your Final Map Project. You'll be required to quantify your methods and reasoning's for the use of layers, symbols, line work, map elements, and overall map style and layout for your Site Plan.

Topic:

- Final Map Project Presentation

Outcomes:

1. Student will demonstrate his/her ability to successfully present their Final Map Project to an audience of peers and instructors.
2. Student will demonstrate his/her ability to quantify the methods and reasoning's for use of layers, symbols, line work, map elements and overall mapping style for their Final Map Project.

ACTIVITIES (REQUIRED)

In-Class Meeting

1. In-Person Class meeting on Wednesday, July 8 @4:30pm - 7:30pm. *(Each class attendance and participation will be worth 5 points.)*

This workforce solution was funded by a grant awarded by the U.S. Department of Labor's Employment and Training Administration.
