

FINAL MAP PROJECT OVERVIEW

Introduction

Welcome to week 7: Ok, we've got our field data imported into CAD, created contours and have begun connecting the dots—It's now time to put the finishing touches to our Topo Map and plot a map for our Final Map Project. Final Line work, Labels, and Plotting of your maps for review and final submission is our focus for this week. You'll also exercise quality control measures on your draft plots to ensure map errors are eliminated. This is the time to plug in your headphones and allow your artistic side to shine through—nothing passes the time better than getting lost in your music and drafting your map. By All Means, Rock Out!

This week you'll be required to finish your Final Map Project for submittal to your instructor.

Outcomes:

1. Introduction to CAD Mapping; Final Map Project Submittal
2. Student will demonstrate his/her ability to successfully complete, plot, and submit a Topo map using CAD.
3. Student will demonstrate his/her ability to exercise quality control measures to ensure mapping errors are eliminated before final map submission.

ACTIVITIES (REQUIRED)

In-Class Meeting

1. In-Person Class meeting on Wednesday, July 1 @4:30pm - 7:30pm. *(Each class attendance and participation will be worth 5 points.)*

Assignment

Work on your Final Map Project (The Final Project will be worth 15% of your final grade.)

This workforce solution was funded by a grant awarded by the U.S. Department of Labor's Employment and Training Administration. The solution was created by the grantee and does not necessarily reflect the official position of the U.S. Department of Labor.
