Graphics Tutorial

This tutorial will show you how to incorporate graphics into your WordPress site. Follow the instructions to complete Assignment 9d: Graphics.

Getting Started

Images are a huge part of any blog or website. You need to have a **Plugin** that will help you manage and display your images (graphics, clip art, etc.). You will be installing and using the **NextGEN Gallery Plugin**:

- Download the software – from the **Plugin Directory**
- Upload the software – to your website
- Activate the **Plugin**

3. Watch the video a **second time** and follow the instructions in the video to create a picture gallery.

- Call your gallery **Pictures**.
- Put your **Pictures** gallery under your **About Page**.
- You will need to provide five (5) of your own graphics that are relevant to your website.

4. Finally:

At some point you may be interested in editing an image that you already have uploaded, be sure to check out this article:
